**Precept #3: CARREER PROGRESSION and POTENTIAL
CURRENT ASSIGNMENT:**

Medical Director, Yavapai-Apache Health Center (0-6 Billet): 7-07 to present.

- Supervise and oversee the satellite clinic medical services, and day to day functions of the clinic. Satellite clinic is 90 miles outside Phoenix in isolated/rural area. Medical Director Duties include participating in staff evaluations, hiring, job descriptions, and day to day operations of the clinic and staff. Provide clinical services for the Yavapai-Apache Nation, including a full range of family medicine, urgent care, preventative health, immunizations, adult medicine, and pediatrics including newborn, women's health and limited prenatal care.

Achievements

- Expanded clinic services and increased hours, to maximize services to the community. Hours have increased from 24hours/week to 36hours/week. Patient visits have increased from 1700 to approximately 1900. Increased number of immunizations. The service area includes approximately 2,000 tribal members.
- Spearheaded Telemedicine services as applied and received funding for telemedicine equipment from OIT program Phoenix Area for establishing

Telemedicine services at the Yavapai-Apache Health Center and have received equipment, Nutrition services ongoing monthly, and plan to establish rheumatology, dermatology and behavioral health services.

- Consultant for NBC TV, regarding Diabetes prevalence, while community members were participants in “Losing it with Jillian”.
- Co-initiator for walking program in community to increase health and wellness activities.
- Implemented Vaccines for Children Program at the Yavapai-Apache Health Center in 2010, previously these immunizations were obtained from parent facility.
- Testing pharmacy updates in EHR, for prescriptions filled outside of the Phoenix Indian Medical Center Pharmacy, August 2010. Plan to participate in electronic prescribing once available through EHR.
- Yavapai-Apache Nation Community Health Fair, Speaker, November 2010
- Participated in H1N1 immunization planning via teleconference and preregistered to receive vaccine from Arizona Department of Health, 2009.
- Increased immunization services by implementing additional required vaccines through participation in the Vaccines for Children Program in August 2008, including transportation, storage and administration of Varicella, currently providing all recommended vaccines.
- Successfully implemented the Electronic Health Record October 2008 and utilizing EHR services for clinical services including labs, pharmacy, Behavioral health and consultations.
- Increased preventative health services, including women’s health, cervical cancer screenings increased by 42%, well child checks, immunizations have increased by 33% and wellness visits.
- Implemented Diabetes advisory group to promote Diabetes prevention, included community members, Wellness department and Children’s Recreation Department.
- Implementation of Diabetes support group in the community including Nutrition, Public Health Nursing and RN.
- Implemented Fluoride varnish application during well child exams, to promote oral health
- Work closely with Dental department and provide on the spot consults to facilitate dental care, limits the need for transportation to another facility for consults.
- Speaker at Diabetes Seminar for community members and elementary school on health promotion topics.
- Community lecture regarding cancer prevention.
- Authored newspaper articles regarding health and wellness for community newspaper.
- Awarded USPHS Commendation Medal 2009 for achievements in preventative health and immunization services.

- Nominated for Commissioned Corps Achievement Medal in 2010.
- Enthusiastically teaching medical students and residents
